						<p>Validation (v) – the act of centering people, for whom changes are being made, in gaining clarity and measurement.</p>
						<p>Values (n) – a person's principles or standards of behavior; one's judgment of what is important in life; often internalized norms from social groups or familial origins.</p>

						<p>Washington Kindergarten Inventory of Developing Skills (WaKIDS) – includes an assessment that is administered during the first two months of kindergarten. Teachers observe students across six areas of development and learning: Social-Emotional, Physical, Language, Cognitive, Literacy and Math. While the only requirement for kindergarten is to be five years of age by August 31, children who demonstrate readiness in all six areas have a greater likelihood of success in kindergarten and beyond.</p>
						<p>White Supremacy (n) – the belief and construction of norms that centers White people as a superior race that should therefore dominate society, typically to the exclusion or detriment of other racial and ethnic groups, particularly Black people.</p>
						<p>Whiteness (n) – refers to the specific dimensions of racism that serve to elevate white people over people of color. Whites are theorized as actively shaped, affected, defined, and elevated through their racialization and the individual and collective consciousness formed within it; conceptualized as a constellation of processes and practices rather than as a discrete entity (i.e., skin color alone). Whiteness is dynamic, relational, and operating at all times and on myriad levels. These processes and practices include basic rights, values, beliefs, perspectives, and experiences purported to be commonly shared by all but which are actually only consistently afforded to white people.</p> <p><i>SOURCE:</i> PBS, “Race: The Power of an Illusion” (2018–2019 relaunch of 2003 series), Robin DiAngelo, “White Fragility” (International Journal of Critical Pedagogy, 2011)</p>
